Call for papers for the Workshop Towards Sustainable Growth

The Research Institute for Development, Growth and Economics (RIDGE), Facultad de Economía y Negocios (FEN) of Universidad de Chile, and Banco Central de Chile are pleased to announce the call for papers for the Workshop on Towards Sustainable Growth, an activity of the RIDGE December Forum.

In recent years, a dynamic body of economic literature has emerged, focusing on understanding the disparities in economic development across countries. This field explores how distant historical events have long-lasting impacts on institutions, culture, human capital, and technology, shaping current living conditions. The purpose of this workshop is to share and discuss the most recent and innovative developments in macro-development research, emphasizing the broad, systemic factors that drive economic progress.

The workshop will be held in Santiago de Chile, Chile, on December 19-20, 2024.

The Workshop will be held within the framework of the 2024 RIDGE December Forum along with the following workshops:

Financial Stability, November 12-13, Montevideo, Uruguay

International Macro, December 16-17, Santiago de Chile, Chile

Growth and Development in Macroeconomics / International Trade, December 16-17, Santiago de Chile, Chile

Environmental Economics, December 19-20, Santiago de Chile, Chile

The RIDGE December Forum aims to favor the spread of high-quality research in economics by bringing together top researchers working on the frontier of knowledge with local and regional researchers and policymakers. Participants in this workshop are welcome to attend the other workshops.
